To: Interested Parties

From: Dale Weidemiller

RE: City of Bradenton, DDA, RFQ for Construction Manager Qualifications

---

Several questions have been posed and the following are the answers given to some interested parties. The intent is to distribute these clarifications to as many interested parties as possible through the Chamber of Commerce website as well as a copy available at the Downtown Authority, 101 Old Main Street, Bradenton, FL 34205.

- 1. Is it proper to contact Kimley Horn for additional information on the scope of work?** Yes. However, the project has not been designed so the information received will be very general in nature. If you wish, contact Bill Waddill at 941-922-8187.
- 2. There are discrepancies between the Table of Contents and the RFQ; specifically Tab E, G and H.** Actually there is no table of contents, but the way the RFQ was printed, I can see why some people would assume that the "Application Requirements" was the table. The Application Requirements only references the format that the application should be structured and presented. There is no reference or relationship between the Tabs and the subsequent paragraphs in the RFQ.

**Thank you.**
